

On-site Health Screening...

Employee Health Screening carried out on-site and with no exercise involved, there is a solution for every organisation.

From mini employee health checks to comprehensive reports, health screening can be tailored around your company.

Look after your most valuable assets, your employees.

We can tailor on-site Employee Health Screening with various options around your budget and requirements. With 'Mini Health MOT's' to more detailed options, high quality health screening programmes carried out at your workplace by trained health professionals.

Benefits to Employer

- Helps to reduce staff absenteeism
- Demonstrates duty of care to your employees
- Delivered on-site
- Cost effective
- Easy to implement
- Helps to boost staff morale and employee retention

Benefits to Employee

- No exercise involved
- Online booking system
- Peace of mind
- Score cards / same day results

After each assessment, employees receive a confidential health check report (on the SAME day) highlighting improvement areas and valuable advice from the team. An Organisational Health Check Report is also provided (segmented by location, department etc) along with recommendations.

It is from here that you can develop a proactive Workplace Health & Wellbeing strategy to support organisational development and we can also provide additional services to help improve these results.

By setting baseline data it is possible to measure annual changes and this information can be used alongside sickness absence data, staff turnover and other key performance indicators to measure the effectiveness of a wellbeing programme.
